SOLUTIONS DE PROCHAINE GÉNÉRATION

LOSING CUSTOMERS TO YOUR COMPETITION BECAUSE YOUR TELEPHONE SYSTEM CAN'T DO MORE?

- Norleaf Networks telephone solution using Voice over Internet Protocol (VoIP) has the features, reliability, scalability, and flexibility to keep your customers connected to you at a much lower cost than traditional telephone solutions.
- In addition to traditional features, Norleaf Networks VoIP telephone solution offers advance features that you expect from large telephone solutions and a lot more such as dial by name, configurable voice menus, call waiting, caller id, music on hold, and call queues. You can even send and receive calls from the same number while outside the office.
- Norleaf Networks VoIP telephone solution can integrate into your existing telephone system, giving you more phone extensions and added features at a fraction of the cost of upgrading or replacing your old telephone system. Best of all, you can continue to use the VoIP equipment when you are ready to completely switch to VoIP.

LOSING YOUR COMPETITIVE EDGE WITHOUT AN ADVANCED PHONE SYSTEM THAT HAS CALL CENTRE CAPABILITY, BUT CAN'T AFFORD THE HIGH COSTS?

- Norleaf Networks VoIP telephone solution is a big business solution at a small business price. Now, any small or mid-sized company can have call centre capability at a lower cost than traditional telephone solutions.*

LOSING MONEY PAYING LONG DISTANCE CHARGES TO CALL YOUR OFFICE WHILE ON THE ROAD OR OFFICES IN DIFFERENT CITIES?

- Norleaf Networks VoIP telephone solution connects offices and mobile employees from around the world. Your office travels with you as long as you have an Internet access.
- Norleaf Networks VoIP telephone solution can be used to eliminate long distance charges for calls between branch offices, saving you money.

Norleaf Networks VoIP telephone solutions cost **50-75%** less than traditional telephone solutions. We have many different packages available. Our starter package includes 4 extensions with phones, 2 incoming lines, voice mail, and regular telephone features for under **\$1,500****.
